

Livingtree Approve

A Central Approval System That Makes Fundraising Transparent and Trackable Across Your District

Complete Oversight and Visibility Across All Fundraising Campaigns

Livingtree Approve creates complete fundraising coordination with school and district administrators by providing them visibility into every fundraiser in the district. The system allows administrators to pre-approve ANY fundraiser, regardless of whether the campaign takes place online (i.e. DonorsChoose, SnapRaise) or traditionally (i.e. Chipotle night, wrapping paper sales, car washes). The approval system is a completely customizable process that aligns with and automates district procedures, ensuring that fundraisers are properly reviewed by the correct administrators and centrally tracked for insight into fundraising activities.

No Surprises: Review and Pre-Approve Every Fundraiser

Livingtree's Approval System collects all fundraiser information, and puts it in-front of the right people for approval, thus creating one centralized system and eliminating manual processes. Districts can customize their approval flows by category to ensure fundraising requests follow district approval procedures.

Reporting and Insight into Your District's Fundraising Data

Livingtree provides critical data to help school districts make decisions about budgets and fundraising procedures. Data from fundraising requests are aggregated and broken down in Livingtree's Reporting to provide details about the types of fundraisers occurring, amount of funds raised, costs, fundraising categories, etc.
